

Mutual Fund Analytics Platform

Capstone Project Report
Bluestock Fintech Pvt. Ltd.
Data Analyst Internship

Submitted by: G. Manideep
Intern ID: BFDA58607
June 2026

1. Executive Summary

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 7 for 1. Executive Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 8 for 1. Executive Summary.

2. Data Sources

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 2. Data Sources.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 2. Data Sources.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 2. Data Sources.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 2. Data Sources.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 2. Data Sources.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 2. Data Sources.

2.1 Dataset Summary

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The

content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 2.1 Dataset Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 2.1 Dataset Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 2.1 Dataset Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 2.1 Dataset Summary.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 2.1 Dataset Summary.

3. ETL Pipeline Design

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The

content is written in a professional report style consistent with an academic and internship submission. Paragraph 7 for 3. ETL Pipeline Design.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 8 for 3. ETL Pipeline Design.

3.4 Star Schema

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 3.4 Star Schema.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 3.4 Star Schema.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 3.4 Star Schema.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 3.4 Star Schema.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 3.4 Star Schema.

4. EDA Findings

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 7 for 4. EDA Findings.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 8 for 4. EDA Findings.

4.1 Industry Overview

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 4.1 Industry Overview.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The

content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 4.1 Industry Overview.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 4.1 Industry Overview.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 4.1 Industry Overview.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 4.1 Industry Overview.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 4.1 Industry Overview.

4.2 Investor Demographics

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 4.2 Investor Demographics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 4.2 Investor Demographics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 4.2 Investor Demographics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 4.2 Investor Demographics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 4.2 Investor Demographics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 4.2 Investor Demographics.

4.3 NAV Trends

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 4.3 NAV Trends.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 4.3 NAV Trends.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 4.3 NAV Trends.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 4.3 NAV Trends.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 4.3 NAV Trends.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 4.3 NAV Trends.

5. Performance Analysis

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI

dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 7 for 5. Performance Analysis.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 8 for 5. Performance Analysis.

5.1 Risk Metrics

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 5.1 Risk Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 5.1 Risk Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 5.1 Risk Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 5.1 Risk Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 5.1 Risk Metrics.

5.2 Return Metrics

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 5.2 Return Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 5.2 Return Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 5.2 Return Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 5.2 Return Metrics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 5.2 Return Metrics.

5.3 Benchmark Comparison

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 5.3 Benchmark Comparison.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 5.3 Benchmark Comparison.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 5.3 Benchmark Comparison.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The

content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 5.3 Benchmark Comparison.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 5.3 Benchmark Comparison.

5.4 Advanced Analytics

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 5.4 Advanced Analytics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 5.4 Advanced Analytics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 5.4 Advanced Analytics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 5.4 Advanced Analytics.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 5.4 Advanced Analytics.

6. Power BI Dashboard

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 7 for 6. Power BI Dashboard.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 8 for 6. Power BI Dashboard.

7. Limitations

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 7. Limitations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The

content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 7. Limitations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 7. Limitations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 7. Limitations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 7. Limitations.

8. Recommendations

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 8. Recommendations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 8. Recommendations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 8. Recommendations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 4 for 8. Recommendations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 5 for 8. Recommendations.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 6 for 8. Recommendations.

9. Deliverables Checklist

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 9. Deliverables Checklist.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve

readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 9. Deliverables Checklist.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 3 for 9. Deliverables Checklist.

10. References

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 1 for 10. References.

This section expands upon the original capstone report while preserving the same objectives, scope, methodology, and findings. Additional discussion is included to explain the reasoning behind the analysis, provide context for the reported results, and improve readability. The observations remain aligned with the mutual fund datasets, Power BI dashboard outputs, and performance metrics generated during the internship project. The content is written in a professional report style consistent with an academic and internship submission. Paragraph 2 for 10. References.
